

I Grow Chicken First Steps Manual

Purpose

This document aims to highlight the first steps in successfully setting up an account, and administering your first flock. After that it explains the first actions. The app only works on **Android** Phones!

Step	Image	Description
1.		Take note. This whole process takes about 15 min for the initial set-up. Depending on connection speeds this might be slower.
2.		Download from Google Play Store & Install
3.		<p>Open App. Go to Login. When there click on Register. Setup the account according to the instructions on the page. When done click Submit</p> <p>Make sure that your password adheres to the following rules:</p> <ol style="list-style-type: none"> 1) Total minimum of 6 characters 2) At least 1 capital letter: A – Z 3) At least 1 lowercase letter: a – z 4) At least 1 digit: 0 – 9 5) At least 1 special character, generally found above numbers on keyboard: ! -)
4.		A confirmation mail will be send to you. This can take up to 2 minutes in some cases. Please also check your junk-mail or clutter box, as it sometimes ends up there.

I Grow Chicken First Steps Manual

		<p>Confirm the email sent to the client by clicking on the link. After this you can log in with the provided email and password.</p>
<p>5.</p>		<p>Upon successfully completing your identification you can safely proceed to the actual registration.</p>
<p>6.</p>		<p>After logging on you will be directed to the Registration Wizard. Here one can tailor the setting up of the app. Choose preferred language and country.</p>
<p>7.</p>		<p>Make your next choices according to your setup. When all questions have been answered the app will generate your account with initial values. After initial set-up, you can always alter your settings.</p> <p>Operational Language → this impacts the data in the db. Not all languages are available. Base language is English.</p> <p>Operational Country → select what your main country of operation is. All financials will be related to this countries' currency.</p> <p>Latitude, Longitude, Altitude → generated by the app when location services are switched on. Required for correlate data based on climate and vicinity.</p>

Back Register company Next

We need some information from you before you can use this app. (2/3)

Company Type	Coöperatie
Bird Phase	VK
Supplier	(select one ...)
Breed	(select one ...)
Bird Places	

Company Type → Make a selection, choices are:

- 1) Vertical Integration – larger operations with multiple BirdPhase
- 2) Cooperative – similar but legally different
- 3) Broiler Farm – Only broilers – for smaller to medium operators
- 4) Layer Farm – Only commercial layers – for smaller to medium operators
- 5) Mixed Farm – Broilers as well as commercial layers, or dual-purpose birds – for smaller to medium operators

BirdPhase → select based on first choice. In case of Vertical Integration choose either broiler or layer, depending on which is predominant. Later you can add the other BirdPhase.

Supplier → select your predominant supplier. Others can be added later

Breed → select your main breed. When changing supplier, available breeds change.

Bird places → give your total number of birds you keep. When adding more assets(sheds) later the app will recalculate total numbers.
